

Assure Unaltered Video and Audio Recording Data with a Secure Chain of Custody Process

From incident to courtroom, our automated solution will give your legal department peace of mind that the integrity of your Digital Video Recorder (DVR) data will standup in court.

The Wi-Tronix solution reduces workload and the possibility of human error during manual tracking by maintaining your digital evidence. Our chain of custody process will automatically record and keep track of all user download activities. You can rest easy knowing that your data is secure.

EDGE HARDWARE

Video/audio are immediately encrypted

COMMS & CLOUD

Data is sent over a secured VPN to the Wi-Tronix Data Cloud

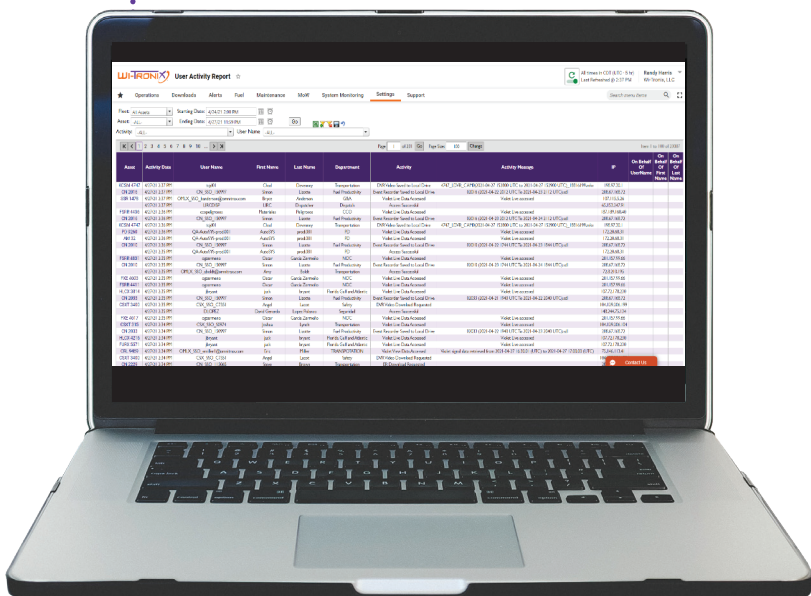

ENCRYPTION

A checksum is created, calculated, and stored

VALUE

Checksum recalculated and compared upon video/audio download
