Rail Radio View

Unparalleled cab radio communication monitoring through AI-powered insights

Simplify compliance and increase on-track safety with real-time access to all cab radio communication* and AI-generated transcriptions from any locomotive with equipped the Rail Radio View hardware and software solution.

Effortlessly search transcripts by keyword or phrase for remote compliance monitoring. Leverage Wi-Tronix's proven data security best practices for complete peace of mind.

Focus on what matters most: advancing your safety culture through powerful digital insights. Our scalable solution grows with your needs, ensuring you stay ahead of the curve.

Simplify incident investigation and enable remote compliance monitoring

Simplify investigations: Gain immediate access to captured evidence (cab radio audio) for incident and formal investigations, eliminating time-consuming debates and resolving disputes quickly.

Proactive safety: Transition from limited visibility to remote compliance monitoring that empowers you to proactively address potential safety concerns and foster a safer operating environment.

Unified view for a simplified understanding: Access a mobile-friendly, time-synchronized view of all critical data, including cab radio audio, video thumbnails, event recorder data, GPS information, and clear, helpful transcriptions.

Enhanced security and data integrity: Enjoy secure audio and transcription storage with access controls and industry-standard two-year data retention for complete peace of mind.

*Does not record crew voices in cab, only radio communication
