

## SOC 2 Type II Compliance

### Meeting internationally recognized standards

Know your most sensitive data is safe, secure, and protected when you partner with a SOC 2 Type II-compliant solution. Wi-Tronix has maintained this third-party recognition since 2019 and works diligently to keep customer data protected on a daily basis:

- ✓ Systems securely leverage cellular networks and other features to ensure that endpoints are not accessible by other Internet users
- ✓ Systems are locked down to prevent malicious code from gaining a foothold
- ✓ Over-the-air security patches are promptly applied
- ✓ Data transmissions are encrypted
- ✓ Power Hold Up feature ensures the Violet Edge continues to function while event recorder data is sent to the cloud, even seconds after power loss
- ✓ Single Sign On (SSO) is utilized when available
- ✓ Software supports full auditing and logging of customer activity
- ✓ VPN tunnels are used for business-to-business connections
- ✓ Incident response and disaster recovery procedures are defined, implemented, and periodically tested
- ✓ Agile methods that include input from Information Security before feature development begins
- ✓ EN-certified
- ✓ FRA-compliant for PTC & EATC
